

I am utterly appalled by Sinclair Broadcasting's plans to air anti-Kerry propaganda two weeks before the presidential election.

The last time in my recollection the airwaves were used to air such blatantly partisan political propaganda it was Germany in the 1930s and the ringleaders wore swastikas.

I can't believe that your agency can't stop this. Can't you threaten to yank their broadcasting license or something? You must enforce the law!

Your prompt attention to this matter is appreciated.
